PLATE XXVI.

Leontocaris paulsoni, n.g. et sp.

- n.s. Lateral view of a male specimen, natural size. The details are also from the male.
- Fr. Part of front in dorsal view, magnified.
- r. Rostrum magnified.
- T., urp. Telson and one of the uropods in dorsal view; apex of telson more highly magnified.
- a.s., a.i. First antenna, and part of second.
- m., mx. 1, mx. 2, mxp. 1, mxp. 2, mxp. 3. Mandible, with parts more highly magnified, first and second maxillae, first, second and third maxillipeds. The mandible is figured on rather a larger scale than the other mouth-organs.
- prp. 1, 2, 5. First, second, and fifth peraeopods, including both members of the first two pairs.
- plp. 1. First pleopod, with retinaculum more highly magnified.
