useful information about the Solnhofen Lithographic Limestones. We really thank Marie-Astrid Angel (Bibliothèque de Paléontologie, MNHN) and Sophie Guillon (Bibliothèque de Géologie, MNHN) for their useful historical researches and also Christian Lemzaouda (Département Histoire de la Terre, MNHN) for assistance in photographic work. We also thank Jean-Claude Gall and Annemarie Ohler for their reviews. This paper is a contribution from the Museo di Storia Naturale di Milano (Paleontology Department), and the UMR CNRS 7207 Centre de Recherche sur la Paléobiodiversité et les Paléoenvironnements as well as the Département Histoire de la Terre (MNHN, Paris).
